

Science and Technology Rules and Information Sec II

Below are the lab rules and class information. The student will not be allowed to participate in any of the labs until this sheet is **returned signed**.

Safety Lab Rules

1. Students must act responsibly in the lab and follow instructions given by the teacher. Failure to do so may result in the loss of lab privileges while, still being responsible for lab reports. Only teacher authorized activities are permitted.
2. Some labs will require safety goggles which are available in the lab for students to use. However, if students wish to have their own pair, they can see me.
3. Students must take proper care of lab equipment. Students will have to reimburse the school for any broken or missing equipment.

Class information

1. The course is evaluated using two competencies; knowledge and labs. The knowledge which is mostly evaluated through tests and quizzes is worth 60% of the term, labs are worth 40% of the term.
2. Tutoring will be given in C147 at the beginning of lunch on days 3, 4, 9 and upon request.
3. If your child is experiencing difficulty in class, you will be notified by e-mail.
4. Materials: The following materials will be needed:

Worlds Workbook
Lab Manual (will be distributed in class)
Duo-tang
Binder (approximately 1 ½ “ or 2 “)
Loose leaf paper
Pens (blue or black)
Pencils
Eraser
Ruler (15 cm)
Calculator

Please note: various project materials (eg. Pencil crayons, scissors, glue, etc) will be needed throughout the year

5. Science policies: These policies are followed by the science department regardless what grade the child is in.

- A student has two days to get an assignment/project/lab in after this they will lose 10% per day for a maximum of 3 days. Weekends count for 2 days. After this a mark of zero will be given.
- No re-tests are given.
- Extended time is already factored into projects.
- When there is a common assessment (tests and quizzes), students are prohibited of bringing any electronics to class for the entire period.
- Students will be reminded not to bring an electronic to class and they will have to sign on the evaluation that they do not have an electronic with them. If a child does bring an electronic to class during an evaluation they will get a zero for the assignment.

I will be making a list of parent e-mails in order to inform you directly of all upcoming tests and assignments. This will give you the opportunity to know what is going on in science class. It also allows a much quicker way for teacher/parent communication if the need arises.

I wish your child a fun and successful year in science class.

Dr. Bob
Robert H. Schweitzer
